Shipping & Delivery SLA

Brightline Supplies Inc. | Document POL-SHP-002 | Version 3.2 | Effective 1 July 2025

1. Purpose

This document defines the delivery commitments Brightline Supplies makes to customers and the compensation owed when those commitments are missed.

2. Delivery SLA by region

The SLA is measured in **business days from the ship date to the delivered date**. Weekends and public holidays do not count. The SLA depends on the delivery region of the order and the customer tier.

Region	Standard / Gold SLA	Platinum SLA
North	3 business days	2 business days
South	4 business days	3 business days
East	3 business days	2 business days
West	5 business days	4 business days

Platinum tier customers receive priority handling and a delivery SLA that is one business day shorter than the regional standard (minimum 1 day). Gold tier customers receive the standard regional SLA with priority dispatch.

3. Order processing

Orders placed before 2:00 PM local warehouse time on a business day ship the same day. Orders placed after the cut-off ship the next business day. Orders over 500 units are split-shipped and each shipment has its own SLA.

4. Late-delivery compensation

If a shipment is delivered after its SLA, Brightline issues an account credit calculated as a percentage of the order value (excluding tax and freight):

Days late	Credit on order value
1-2	5%
3-5	10%
6+	15%

Orders more than 5 days late additionally qualify for free return shipping and the option to return the entire order without a restocking fee (see POL-RET-001, section 7). Credits are applied automatically within **3 business days** after delivery, and customers should open a ticket if the credit is missing.

5. Carriers and tracking

Brightline ships with SwiftFreight, NorthStar Logistics and CityHaul Express. Tracking numbers are emailed at shipment. Carrier delays caused by documented severe weather or road closures may be excluded from the SLA at the discretion of the Logistics Manager; such exclusions must be recorded on the shipment.

6. Damaged in transit

Damaged deliveries are handled under the Returns & Refund Policy (POL-RET-001). Customers should report damage within 7 days of delivery.

7. Escalation

Customers with an order that is already 3 or more days past its SLA and not yet delivered should be escalated as a Priority 2 (P2) ticket per the Customer Support Handbook (POL-SUP-004).
